

## Topic: Search for resources to putting our hobbies into practice

### Activity

<b>Goal/Aim</b>	The activity will allow you to learn how to search for free video tutorials to learn new hobbies.
<b>Duration</b>	approximately 30 minutes
<b>Objectives</b>	<ul style="list-style-type: none"><li>- To know how Youtube works</li><li>- To use Youtube to learn hobbies, searching for video tutorials</li><li>- To know how to create a profile (channel) and lists to save interesting videos</li></ul>
<b>Needed materials</b>	Computer connected to Internet, projector.
<b>Instructions</b>	<p>Trainer will introduce the concept of the „video tutorials” and Youtube platform. S/he will encourage the participants who already use it, to explain it. Trainer will explain the operation and usefulness of saving interesting videos through the creation of Youtube lists.</p> <p>Trainer will teach how to creat a Youtube Channel. Each participant will think about their own interests and the name and image of the own profile. After that, each participant will create her/his own channel. Once it is created, they will search for video tutorils regarding the hobbies and passions they have or they are interesated in. They will create different lists where they will clasify and save the videos.</p> <p>Trainer will ask: <i>would you dare to create a youtube channel where you can show your hobbies to others?, What would you teach and how?</i> Participants will share their opinions. Final reflection about the usefulness of Youtube and other digital tools for hobbies will take place.</p>
