

## Topic: Search for resources to putting our hobbies into practice

### Activity

<b>Goal/Aim</b>	The activity will allow you to learn how to search places and save them in lists, using Google maps.
<b>Duration</b>	approximately 20 minutes
<b>Objectives</b>	<ul style="list-style-type: none"><li>- To know how Google maps works</li><li>- To use Google maps to search for places where to put in practice hobbies and passions.</li><li>- To know how to create lists to classify places in Google maps.</li><li>- To know all the functions of Google Maps.</li></ul>
<b>Needed materials</b>	Computer connected to Internet, projector, smartphones.
<b>Instructions</b>	<p>Trainer will introduce the app Google Maps. S/he will ask participants if they know all the functions available in Google maps. All together, they will explore the app in their smartphones, step by step.</p> <p>After that, each participant will search for places where to put in practice their hobbies in their local community/town/city. Trainer will teach how to create lists to classify their findings and each participant will elaborate 3 lists. They will need to find and save 5 places in each list, related to 3 different hobbies/activities.</p> <p>After that, a final reflection will take place. Participants will share their findings.</p>
